Summary

I'm a highly driven cybersecurity professional with expertise in OSINT, threat intelligence, and vulnerability assessment and penetration testing. Skilled in analyzing cyber threats, conducting security research, and providing actionable intelligence to strengthen organizational defenses. Proven experience in facilitating comprehensive cybersecurity training, mentoring individuals, and raising awareness about emerging threats. Adept in using open-source intelligence for investigations and uncovering critical information to support law enforcement and advocacy initiatives. Combines technical expertise with a commitment to human-centric cybersecurity solutions.

Education

Risk Assessment and Management VAPT, SIEM Team Leadership NIST ISO 27001 Burp Suite
Metasploit Wireshark and Splunk Critical Thinking and Analytical Skills Communication Wireshark

Experience

PQP Marketing Consult

Cybersecurity Facilitator

July 2024 – Present

Abuja, Nigeria

- I designed and delivered comprehensive cybersecurity training programs for diverse audiences.
- I mentored participants, enhancing their technical skills and readiness for real-world cybersecurity challenges.
- I developed custom lab environments and training materials tailored to participants' needs.

Various Platforms (Bugcrowd, HackerOne, Intigriti, Public Websites)

Independent Bug Hunter

November 2022 – Present

Nigeria

- I worked with businesses and organizations to identify and resolve security vulnerabilities and weaknesses affecting digital assets and computer networks.
- I specialized in web application penetration testing, identifying vulnerabilities like XSS, SQLi, and authentication bypass.

Nigerian Communication Satellite Limited

Cybersecurity Analyst (Intern)

December 2022 – July 2023

Abuja, Nigeria

- I conducted vulnerability assessments and penetration testing to identify and remediate security vulnerabilities using various security tools.
- I monitored and analyzed security events and incidents to detect and respond to potential threats using SIEM tools.
- I participated in cybersecurity training and awareness programs to educate employees on best practices and promote a culture of security.

Footright, LLC

Cybersecurity Specialist (Contract)

February 2022 – March 2023

Texas, USA

- I worked with Businesses and Organizations to pinpoint the most critical security flaws
- I collaborate with a team to develop security awareness training programs for organizations
- I identified exposed assets and security vulnerabilities through OSINT analysis for SMEs, leading to proactive mitigation measures.

Professional Development

Routine:

- I regularly attend local tech conferences, create educational content, and engage in cybersecurity challenges (CTFs). Conduct security research and training sessions focused on exploiting known vulnerabilities and developing defensive strategies. Actively operate as an online investigator using OSINT skills, frequently providing anonymous tips to law enforcement on criminal activities.

Courses and Certificates:

- Google Cybersecurity Professional Certificate (2024).
- Certified AppSec Practitioner (CAP) (2022).
- Certified Network Security Practitioner (CNSP) (2025).

Leadership / Volunteering

Voice of African Women for Human Dignity

Media Team Member

Abuja, Nigeria

- I utilized OSINT techniques to identify and verify credible news stories highlighting societal challenges faced by women and children.
- I conducted detailed investigations into cases of abuse, ensuring accurate and reliable information dissemination.

Footright Organization

Cybersecurity Tutor

USA—Remote

- I conducted interactive cybersecurity tutoring sessions for over 50 students, adapting methods to virtual platforms for diverse regions.
- I have mentored and guided over 15 students from the beginning of their cybersecurity journey.

AntiScam Working Group ASWG

Co-Founder

Nigeria

- Raising public awareness through educational campaigns to prevent falling victim to scams
- Building collaborations and partnerships with organizations, law enforcement, and industry experts to advocate for policy changes and regulations to address the root causes of scams and fraud.

National Association of Cybersecurity Student NACSS(BUK Chapter)

Director of Software

Kano, Nigeria

- I provide training and development opportunities for members involved in security tools development.
- I create opportunities for student involvement in cybersecurity projects.
